Illness Notifications

If your child has been diagnosed with a communicable illness, please report it to your child's teacher as soon as possible. Informing the teachers allows us to properly notify families, and watch for signs and symptoms that may occur. This is important even if your child experienced illness over the weekend.

Outside Food

We kindly ask that any outside food or drink be consumed or disposed of prior to entering the classroom. This allows us to ensure that we know what foods are being consumed so that those with allergies are not being unknowingly exposed. Any liquids containing vitamins, probiotics, pedialite or other additions may not be served in the classroom.
