

# Parents! Easy Guide to Vaccine Requirements: Birth to Pre-Kindergarten-Child care and Preschool

<sup>1</sup>Hep B may be given at birth and is needed for entry into childcare. Required at 2 months of age if not given at birth; if hep b #3 was given before 24 weeks of age, a #4 dose is needed.

<sup>2</sup>Hib schedules may be for 3 and /or 4 doses depending on brand of Hib vaccine. If PedvaxHib is used, the #3 dose of Hib is not due until 12-15 months of age.

<sup>2</sup>Hib #4 is not needed if Hib #3 is given at/after 12 months of age. A Hib dose at/after 12 months is required for all children under 5 years. One Hib dose given at/after 15 months of age meets the Hib requirement regardless of the total number of Hib doses received.

<sup>3</sup>MMR and Varicella must be given on the same day or at least 28 days apart.

<sup>4</sup> Hepatitis A is required for 1 through 5 years of age in Maricopa County only.

DTaP-Diphtheria, Tetanus, Pertussis  
 Hep B- Hepatitis B  
 Hib-Haemophilus Influenzae type b  
 Varicella- chickenpox  
 MMR-Measles, Mumps, Rubella  
 Hep A- Hepatitis A

Summary of vaccines required for children (attending childcare) 15 months-Pre-Kindergarten:

**4** DTaP, **3** Polio, **1** MMR, **1** Varicella, **3** Hep B, **3-4** Hib (with 3<sup>rd</sup> or 4<sup>th</sup> dose on/after 1<sup>st</sup> birthday) or

**1** Hib (after 15 months of age) and **2** Hep A (Maricopa County only)
