

# Adaptive Experiences Initiative

## OVERVIEW

The Adaptive Experiences Initiative expands access to sports, arts, culture, and outdoor recreation for individuals with disabilities and their families across Arizona.

This initiative is built for partners who want:

- ✓ Visible community impact
- ✓ Authentic employee engagement
- ✓ Measurable social return
- ✓ Brand alignment with access, inclusion, and opportunity

## THE NEED

Thousands of individuals with disabilities in Arizona face real barriers to participating in everyday community experiences. These barriers are financial, physical, and systemic.

UCP of Central Arizona removes these barriers by designing and delivering intentional, high-quality adaptive experiences that create participation, confidence, and connection.

Join us in creating a community where ability determines opportunity, not accessibility.

## NEXT STEP >

Let's design a partnership that aligns your business goals with real community impact.

# Adaptive Experiences Initiative

## THE SOLUTION

Adaptive Sports

Arts & Culture

Recreational Outdoors

Breakfast With Accessible Santa (signature experience)

Prom

## WHY PARTNER

Your organization will:

- Fund direct access to experiences for families and individuals
- Gain meaningful brand visibility in high-attendance community events
- Engage employees through hands-on volunteer opportunities
- Receive clear impact reporting and outcomes

## PARTNERSHIP FORMATS

- Program sponsorships
- Event series sponsorships
- Season-long partnerships
- Employee engagement and volunteer activations

Let's design a partnership that aligns your business goals with real community impact.
